

FASTFIX COMPOSITE INSULATED ROOF SERIES

FastFix Roofing series are versatile panels ranging from 50mm to 180mm in thickness, capable of being used as complete roofing structures without additional framing or truss systems when fixed to FastFix walls. The tongue and groove interlocking joining system is combined with a rotary cam lock to fix panels together. The product skins come as a PPGI (Pre-painted Galvanised Iron) metal sheet with the option of ribbed or flat surface finishing.

	Thickness	Width	Height	Weight	Thermal (R) Value
<i>Roof Panel 50</i>	50mm	1180mm	Up to 8m	10.20kg/m ²	2.8
<i>Roof Panel 75</i>	75mm	1130mm	Up to 10m	11.63kg/m ²	4.2
<i>Roof Panel 100</i>	100mm	1130mm	Up to 11.5m	12.82kg/m ²	5.6
<i>Roof Panel 125</i>	125mm	1130mm	Up to 11.5m	14.00kg/m ²	7.0
<i>Roof Panel 150</i>	150mm	1130mm	Up to 11.5m	15.10kg/m ²	8.3
<i>Roof Panel 180</i>	180mm	1130mm	Up to 11.5m	16.40kg/m ²	10.0
